| RE:    | <b>Lipitor® Remains Preferred for Passport Health Plan</b> |       |                             |

Passport Health Plan (PHP) will **not** remove Lipitor® from its Preferred Drug List, as previously stated in the *Pharmacy News: Volume 9, Issue 4*, distributed earlier this month. Lipitor® will remain a Plan preferred medication and will not require prior authorization.

The Plan apologizes for any confusion regarding Lipitor®.

**Questions?**
