Subject:	<b>New Initiative: Passport Health Plan 90-Day Supply at Retail Pharmacy</b>

**Beginning September 7, 2011, certain generic medications will require a 90-day supply for Passport Health Plan (PHP) members who have received the medication on a continual basis.**

This program will benefit PHP members by allowing them to obtain a three month supply of medication at one pharmacy visit. **Please see the attached listing for medications included in the program.**

Please read the following for more information about this initiative.

- If a PHP member has received the specified drugs for **90 or more days** in the previous 180 days, the medication will not process at the point of sale for any supply less than 90-days. Pharmacies should work with providers to obtain a 90-day prescription for qualifying members.
- If a PHP member does **not** have at least a 90-day supply in the last 180 days, the medication will not fill for greater than a 30-day supply.
- If the prescriber does not feel it is appropriate to give the member a 90-day supply of this medication or if the member currently resides in a Long term Care Facility, please use authorization code 303030 to allow for a 12 month override of the requirement.
- If you cannot contact the prescriber in a reasonable time, please use authorization code 909090 to authorize a one-time fill. *(Note: This authorization is valid once per GCN per year and is not valid if authorization code 303030 has been used for the same GCN previously.)*

**It is important that our Pharmacy Network partners make every effort to obtain the proper authorization so members get the appropriate supply of medication.**

PerformRx will monitor the use of the authorization codes to ensure the program is properly implemented and to assess the effectiveness of the initiative. We appreciate your cooperation and support.

Please contact the PerformRx HelpDesk at **1-800-578-0898** if you have any questions or concerns about this initiative.

Thank you.
