

July 25, 2007

Dear Passport Health Plan (PHP) and/or Passport Advantage (PAD) provider,

Due to changes from the Centers for Medicare & Medicaid Services (CMS) and the implementation of the National Provider Identifier (NPI), the Plan has revised our guidance to providers regarding completion of the CMS-1500 form.

Please see the enclosed attachment for further details and how the changes affect you as a participating provider. This information is also available online in the Provider Resources section of www.passporthealthplan.com.

Reminder: During the NPI contingency period, the Plan highly recommends providers use both their PHP and PAD provider identification numbers in addition to their NPIs.

Please let us know if you have any questions regarding these details. In addition, if you have any questions regarding the NPI, the application process, or reporting your NPIs to us, please contact your Provider Relations representative or the Provider Relations department at (502) 585-7943.

Sincerely,

A handwritten signature in black ink that reads "Denise Schifano".

Denise Schifano
Associate Vice President
Provider Relations
